Networking Visit to Kyiv of member organisations of the European Movement

Most important:

- We will have a plenary meeting each morning from 9 - 13, followed by lunch. The rest of the day you will spend in smaller groups, depending on your specific interest. The evenings are free in order to give you a chance to spend time with the people you find interesting.
- For each visit or meeting, we will appoint 2 rapporteurs, who will have the responsibility to report in the end along pre-defined guiding questions.
- For the NGO meeting on Tuesday at the Town Hall and for the last plenary session on Wednesday at the Diplomatic Academy, we ask each of you to encourage everybody you meet to join us. There we can discuss ideas for cooperation and debate Ukraine's future in Europe. We also want to present the European Movement.
- The last plenary session on Wednesday will not be followed by a common lunch. Instead, we want to give you a chance to eat and spend the afternoon with people you would like to co-operate with in future.
- We will close the programme together on the last day, briefly summing up everything we have seen and achieved. This will be followed by a final dinner with everybody who has contributed to the programme.

This project is supported by the Foreign
Office of the Federal Republic of Germany.

citizens of europe
